Students can utilize the **ADVANCED SEARCH OPTIONS** button when searching for courses. This can be implemented before or after entering a course.

Students can filter the results to a specific UK Core Area by clicking the drop-down by **UK Core Area**.

Students can also filter the results to 300+ level, Part-of-term, Fully Online Sections, and more.

After the selection is made, click **SEARCH** to apply the filter.

Students can search for courses on specific days during specific times by hiding courses offered during times they wish to avoid.

Click the box beside each day or time that you do not want to see courses or sections listed for. The filter will be automatically applied; you do not have to click search again.

If you are searching for courses with an Advanced Search Options filter, or are entering only a course prefix, you can click **Hide courses not offered** to filter out any courses that are not offered during the term you have selected.

Tip: You can click **Hide Sections That Don't Fit** to filter your search to courses that have available seats and will fit into your schedule.

The **REGISTER** option is only available when the student's registration window is open.

If the **REGISTER** option is available, you can click **Register** to automatically enroll in the course.

Tip: Students who have been accepted to a new program for a future term or are in multiple degree programs can select which program the course should apply to by clicking the drop-down under **Pick a program type.**
